

Reception

Dangerous Dinosaurs!

In the Dangerous Dinosaurs Project, the children will learn about the time when dinosaurs existed. They will find out what they are called, ate and what happened to them. They will find out how the world has changed since dinosaurs existed. They will learn about animals that are extinct and what that means. They will then learn about protecting their environment and how to recycle.

Key Questions	Vocabulary	
<ul style="list-style-type: none"> When were dinosaurs alive? Where can we find fossils? Which animals are now extinct? How is the world different today and what was it like when dinosaurs existed? 	Prehistoric	Existing times before written historic records.
	Dinosaur	Means terrible lizard.
	Environment	What an area looks like.
	Fossils	The remains of a prehistoric plant or animal.
	Littering	Rubbish such as crisp packets that have been thrown on the floor.

Learning Links	Planned Stories
----------------	-----------------

Dinosaurs
 Know that a long time ago there were no humans on Earth and there were just animals such as dinosaurs. Know that dinosaurs were large reptiles which lived many thousands of years ago. Know that some species of reptile still exist now such as lizards but dinosaurs do not. Know the names and appearance of the following dinosaurs - Tyrannosaurus Rex, diplodocus, brontosaurus, triceratops, stegosaurus. Know that the dinosaurs became extinct and later on humans began to live on the earth.

Environment
 We will learn more about our environment today and how we can look after it. We will begin to understand the importance of recycling and not littering. We will find out how we can have a positive and negative impact on our environment.

- Tyrannosaurus Drip
- Dear Dinosaur
- Dinosaur Department Store
- Mad About Dinosaurs
- The Girl and the Dinosaur
