

Everyday Materials

In this unit, we will be scientists, conducting investigations into the uses and properties of everyday materials.

Science

I can distinguish between an object and the material from which it is made.

I can identify and name a variety of everyday materials.

I can describe the properties of a variety of everyday materials.

I can compare and group a variety of everyday materials according to their physical properties.

I know how the shape of some materials can be changed.

I can identify and compare the suitability of a variety of everyday materials for particular uses.

Computing

I can experiment with sound using a computer.

I can use a computer to create a musical pattern.

Art

Children will complete a Creative Connections project working with the IKON gallery. They will explore colour and texture in line with a musical score they have composed themselves.
